**Updates on Class of 2018 Concerns** (June 2015)  
Update from Dr. Dasilva and Andy Alvarez on meeting with Gail Childs  
NOTES –  
- ECO/Canvas – Canvas is utilized by some DMD courses as a place to submit assignments, communication within the course, etc. ECO houses documentation, announcements, and grades for all DMD courses. As of now, there are no plans to integrate ECO and Canvas.  
- Mediasite – Students reported worsening audio on Mediasite recordings. Marc Turchin, Instructional Support, reported audio quality is dependent on the room being used and offered his services and support whenever there are issues or concerns related to Mediasite.  
- Student Calendars - ECO calendars containing student’s scheduled are synced to their phones. The students reported that this becomes confusing when many of the group activities do not pertain to them or they have to “hunt” for their group activities. The students would like to have personalized group calendars. This information has been passed along to Steve Kostewicz, Manager of Application Support and Development.  

Update from Dr. Dasilva on meeting with Marilyn Vaughn  
NOTES – Marilyn gave Dr. Dasilva a tour of the sim lab and showed her the “problem” areas in terms of cleanliness. She mentioned that the cleaning staff can move station pieces to clean, but it is not their practice to do so, as stations can become unplugged or broken in the process.
