Faculty Positions in Cancer Research
Assistant/Associate/Full Professor
Position #s: 00028398, 00001068, 00011084

The University of Florida College of Dentistry invites applications for established investigators with research focused on cancer and related conditions to complement ongoing cancer research programs in the UF Health Cancer Center and University. The ideal candidate will have an established tenured or tenure-track investigator with a national reputation in scholarship, a track record of independent research funding, and the desire to build a research and training program in cancer biology, cancer clinical research, cancer therapeutics, or cancer epidemiology and control. Faculty with a DMD/DDS and/or PhD degrees who are studying cancers of the head and neck are encouraged to apply, although full consideration will be given to individuals with research programs that are broadly applicable to human cancers. Opportunities for clinical practice are available through the College of Dentistry’s Faculty Practice. Administrative assignments may be available for individuals with demonstrated expertise in leadership, research education and training, and technology transfer.

The University of Florida, a member of the AAU, is the largest and most comprehensive public university in the State of Florida, with large undergraduate, graduate, and postgraduate educational programs. The UF Health Science Center and its six colleges (Dentistry, Medicine, Nursing, Pharmacy, Public Health and Health Professions, Veterinary Medicine) are co-located on the Gainesville campus, with additional teaching, research, and patient care sites in Jacksonville, Orlando, elsewhere across Florida, and internationally. Gainesville offers an unparalleled college town environment with outstanding public and private schools, inexpensive housing, superb year-round recruitment opportunities and a temperate climate.

Candidates are sought across the spectrum of cancer research: cancer biology, clinical cancer research, cancer therapeutics and clinical trials, and cancer epidemiology, survival, prevention and control. The successful candidates will collaborate with a robust cancer research program ongoing at the UF Health Cancer Center and across the University. Academic rank and tenure will be commensurate with experience and accomplishments.

The review of applications will begin immediately and will continue until the positions are filled. To apply, please go to https://jobs.ufl.edu and search for requisition number 0908203. Applicants should attach curriculum vitae, cover letter describing their interest in the position, and a list of three references with their application for consideration.

The University of Florida is an Equal Opportunity Institution dedicated to building a culturally diverse and inclusive faculty and staff. The selection process will be conducted in accordance with the provisions of Florida’s “Government in the Sunshine” and Public Records Laws. Search committee meetings and interviews will be open to the public, and all applications, resumes, and other documents related to the search will be available for public inspection.
