**Associate/Full Professor**  
**Department of Oral Biology**  
**Position #: 00011084**

The University of Florida College of Dentistry (UFCD) is recruiting for a full-time, tenure-accruing clinician scientist at the Associate/Full Professor level in the Department of Oral Biology. The University of Florida College of Dentistry (UFCD) is one of the leading dental schools in the United States, devoted to improving and promoting oral health throughout Florida, the nation and worldwide through excellence in research, education, patient care and service.

The clinician scientist’s research focus can be in the areas of oral cancer, oral infectious diseases, host responses and inflammation, or combinations thereof. The successful applicant will be expected to establish a clinical research program and engage with existing research programs at UFCD, as well as establish productive collaborations with individuals with overlapping interests in the University’s other Colleges, Institutes and Centers. Applicants for Associate/Full Professor should have a demonstrated high level of clinical research productivity and evidence of the ability to develop an independent and interactive research program with a strong and consistent record of quality peer-reviewed publication. The position’s minimum requirements include a DDS, DMD or equivalent degree and PhD. In addition to maintaining a robust research program, duties will include teaching, mentoring and service activities; clinical assignments or administrative appointments may also be available.

The University of Florida, a member of the AAU, is the largest and most comprehensive public university in the State of Florida, with large undergraduate, graduate, and postgraduate educational programs. The UF Health Science Center and its six colleges (Dentistry, Medicine, Nursing, Pharmacy, Public Health and Health Professions, Veterinary Medicine) are co-located on the Gainesville campus, with additional teaching, research, and patient care sites in Jacksonville, Orlando, elsewhere across Florida, and internationally. Gainesville offers an unparalleled college town environment with outstanding public and private schools, affordable housing, superb year-round recruitment opportunities and a temperate climate.

The review of applications will begin immediately and will continue until the position is filled. To apply, please go to [https://jobs.ufl.edu](https://jobs.ufl.edu) and search for requisition number 505535. Applicants should attach curriculum vitae, cover letter describing their interest in the position, a statement of present and future research interests, and a list of three references with their application for consideration.

The University of Florida is an Equal Opportunity Institution dedicated to building a culturally diverse and inclusive faculty and staff. The selection process will be conducted in accordance with the provisions of Florida’s “Government in the Sunshine” and Public Records Laws. Search committee meetings and interviews will be open to the public, and all applications, resumes, and other documents related to the search will be available for public inspection.
